

## ELECTRICAL & AUTOMATION

In the competitive cement, mining, iron and steel, metals production and processing, fertilizer, oil & gas and petrochemical markets, technology improvement is vital to increase production and revenue. While you face the significant challenges of globalization and increasingly stringent environmental regulations, you must ensure exacting quality standards – while avoiding downtime and energy waste.

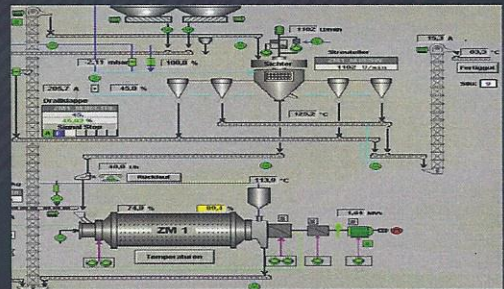

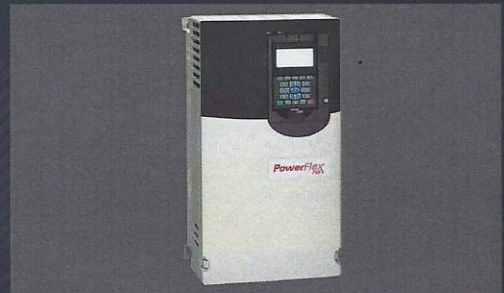

BSK Global is a supplier of factory automation and industrial controls components for many industries. As a wholesale electrical consolidator and automation solution provider, BSK Global maintains an inventory of new and obsolete parts utilized in all areas of the manufacturing and industrial sectors.

BSK Global can improve your performance by:

- Wholesale Pricing; save from Manufacturer's List
- Rapid Response to your Request-For-Quote; customized to Suit Your Needs
- Unmatched Flexibility and Service; our Applications People are Standing By
- Locator Service for Industrial Electronics; Put our Sourcing Wizards to Work for You

Some of the components/ equipment, where we can improve your performance are;

- Drives & Motors
- Motor Control
- Safety Products
- Programmable Controllers
- Energy Monitoring
- Power Supplies
- Software

BSK Global can assist its customers by being expert in parts supply and automation/electrical needs by carrying major players in these areas:

**Allen Bradley / Rockwell:** Allen Bradley / Rockwell is the brand-name line of industrial factory automation equipment manufactured by Rockwell Automation.

The Allen Bradley comprehensive automation solution includes programmable logic controllers (PLC), sensors, photoelectric & proximity switches, safety switches, drives, servo motors, contactors, starters, motor control, programmers, breakers, overload relays, and automation components & accessories.

Rockwell markets their industrial controls under several brands such as PhotoSwitch, PanelView, PowerFlex, GuardMaster, Pico, MicroLogix, SLC-500, PLC-5, CompactLogix, ControlLogix, and FlexLogix.

BSK Global is a reliable Rockwell Automation / Allen Bradley parts and systems solution provider globally. Besides providing parts, BSK Global, through its global alliance, can assist with upgrade/modernization, greenfield investments, and troubleshooting, consulting needs of our customers. We serve many industries such as automotive, cement, mining, iron & steel, metals, food & beverage, machine building, rubber & tire, converting, lamination, oil & gas, and several other industries.
