

AUTOMATIC PUMPIN WITH STATE-OF-THE-ART TECHNOLOGY

ACC10 series are affordable and easy-to-use 12/24 VDC power supply lubrication pumps that can deliver lubricant directly to every point efficiently through its in-built distributor.

You can pump any lubricant ranging from SAE 80 oil to NLGI 1 grease via ACC10
It can pump 0.5 to 50gr oil per minute.

The family of ACC10 series includes 2 models including 12 outlet and 24 outlet. It simply requires installation of injectors (ACC.PU.xx) as the number of points to be lubricated. Unused outlets should be closed with bling plugs (ACC.KRT.M12.1)

SPECIFICATIONS

Electric Supply	: 12/24VDC
Input	: 1.5 A max.
Reservoir	: 3 lt
Outlet	: 12 and 24 outlet
Injector	: Piston type
Flow Rate	: 0.03, 0.045, 0.080, 0, 112 cc/stroke
Lubricant Type	: SAE 80 oil to NLGI 1 grease
Control System	: Optional (internal or external card)
Flow Control	: Optional
