

## Canning Industry

### Scope: -

- To provide Auto-Lubrication to decorator ovens.

### Product

- **Lubricus Battery Unit (LUB-B-2) or 24v Powered Option (LUB-V-2)**
- “Stand alone” unit with self-contained programming. Runs on 70 bar, allowing pipeline lengths of up to 6m & the ability to feed up to 6 points per outlet, via the implementation of distribution blocks. Supplied custom filled with Customers choice of lubricant – battery life up to 3 years or 24V powered.

## Applications

- Shaft Bearings

- Sprocket Bearings

Sprocket Bearings

- Shaft Bearings

Conclusion:

Lubricus Units provide grease reliably, in correct dosages, to help prevent premature wear of bearings & to reduce the amount of power required to operate parts of the decorator – ultimately reducing a company's carbon footprint & therefore costs & taxes.
